**Question 01**

Read the text and write complete answers for the following questions. (10 marks)

**What is seafarer's job: Ordinary Seaman**

What an ordinary seaman does on a daily basis will depend on the type of vessel he or she is employed on. Other factors can play a part too: how many other deck crew members there are, and the type of voyage. In general though, the answer to what is seafarer's job, if we talking about an OS, it will be to help to clean and maintain the ship's deck and certain items of equipment and assist with operations. The work of an ordinary seaman is physically demanding. Duties can include sweeping, washing, buffing, and painting the deck, performing maintenance on the gear that handles cargo, as well as running and rigging gear, and launching and recovering lifeboats and life rafts. They will also handle ropes and wires and make sure that any cargo on board is secure.

It stands to reason then that an OS will spend most of their work shifts on the deck. However,

because of their status as someone working entirely in entry level cargo ship jobs at the start of their career, they maybe asked to do a variety of different jobs so that they get a good, all round understanding of the different departments on a ship. Ordinary seamen on ships are not normally asked to stand watch, but their training could feature watch standing principles so that they know how to keep lookout should the need arise. As for the type of vessel, you can find ordinary seamen on ships as varied as cruise liners, container ships, tankers, heavy load carriers, bulk carriers and more.

- (a) What does an ordinary seaman's job depend on? (1 mark)  
 .....
- (b) Mention another factor that decides seaman's job. (1 mark)  
 .....
- (c) What should ordinary seamen clean and maintain? (1 mark)  
 .....

- This paper has ten (10) questions.
- Answer all questions.

### Question 01

Read the following passage and answer the questions given below.

(10 marks)

#### What are Passenger Ships?

Passenger ships are vessels primarily designed to transport people over a body of water. Ships of this type can be relatively small, providing only limited space for passengers, or have a capacity to carry well over a thousand individuals. A passenger ship may follow a regular route

through local waterways or provide recreational opportunities, such as an extended vacation cruise.

In the strictest sense, a vessel has to meet only a couple of standards in order to be classified as a passenger ship. First, the vessel must provide a suitable amount of space for a minimum of twelve passengers. Second, passenger ships must be designed for conveying people as its primary function. However, it is possible for passenger ships to sometimes also carry small amounts of freight or other items in a hold or other area of the ship.

1. Why are the passenger ships primarily designed?

.....  
.....

2. Write 2 features in a passenger ship.

.....  
.....

3. What kind of a route is followed by the passenger ships?

.....  
.....

4. Write two standards that should be there in a passenger ship.

.....  
.....

5. Find similar words from the passage for the following words.

a. Chances - .....

b. Path - .....
